## ABOUT AVELLINO

Avellino Lab USA, Inc. is a global leader in molecular diagnostics at the forefront of precision medicine for eye care. With a long-term mission to develop personalized approaches to improve health and disease management through genomics, the company is developing a transformative genetic diagnostics product pipeline, as well as genetic therapeutics leveraging CRISPR gene editing, to better manage, and potentially cure, inherited diseases. The company also developed the Avellino SARS-CoV-2 RT-PCR diagnostic test (AvellinoCoV2) to aid in COVID-19 pandemic testing efforts in the US and was the first private, independent company in the US to receive an EUA for its COVID-19 test. Avellino is headquartered in Menlo Park, California, with operations in Korea, Japan, and UK with future plans for further expansion in both Asia and Europe. ## PRODUCTS - CORNEA

### AvaGen™

Quantifies the genetic risk of keratoconus and the presence of TGFBI related corneal dystrophies

(Available in the US)

### Universal Test

Genetic diagnostic assay to detect the presence of TGFBI corneal dystrophy

(Available in Korea and Japan)

Country and Year Founded

**SOUTH KOREA, 2008**

Year Opened US Location

**AUGUST 2011**

Global Headquarters

**MENLO PARK, CA**

Number of Employees Globally (June 2022)

**255**

## PRODUCT - INFECTIOUS DISEASE

### AvellinoCoV2 Test

Swab-based test used to detect the SARS-CoV-2 virus

### AvellinoCoV2 Respiratory

Swab-based test used to detect the SARS-CoV-2 virus, influenza A, influenza B, and respiratory syncytial virus (RSV)

Number of Patents

**31 REGISTERED  
66 FILED**

**9** Number of Laboratories (Global)
